

THE STATE OF STDs IN

OREGON
In 2021,
Syphilis
Continued to
Soar

COVID-19 resulted in likely underreporting of infections and possibly increased transmission in 2021.

15,596
CASES OF CHLAMYDIA
367.3 per 100,000 population

6,221
CASES OF GONORRHEA
146.5 per 100,000 population

2,010
CASES OF SYPHILIS
47.3 per 100,000 population

27
**CASES OF SYPHILIS
AMONG NEWBORNS**
17th Highest Rate in the U.S.

LEARN MORE AT: www.cdc.gov/std/

**ANYONE WHO HAS SEX COULD
GET AN STD, BUT SOME GROUPS
ARE MORE AFFECTED**

Syphilis in newborns is preventable! Screen all pregnant people at first presentation to care, at 28 weeks of pregnancy, and at delivery. Timely and stage-appropriate treatment is essential.

LEFT UNTREATED, STDs CAN CAUSE:

**INCREASED RISK OF GIVING
OR GETTING HIV**

**LONG-TERM
PELVIC/ABDOMINAL PAIN**

**INABILITY TO GET PREGNANT OR
PREGNANCY COMPLICATIONS**

**PREVENT THE SPREAD
OF STDs WITH THREE
SIMPLE STEPS:**

talk | test | treat

Centers for Disease
Control and Prevention
National Center for HIV,
Viral Hepatitis, STD, and
TB Prevention
